SUMMARY

Full Stack Developer skilled in React, Next.js, Node.js, and MongoDB. Experienced in building RESTful APIs, real-time applications with WebSockets, and integrating AI services. Strong grasp of authentication, cloud deployment, and scalable database design.

EDUCATION

ABES Institute OF Technology
B.Tech-Computer Science Engineering (Data Science)

Ghaziabad, Uttar Pradesh
Sept. 2022 – Sept 2026

Children's Academy
INTERMEDIATE(CBSE)-PCM

Ghaziabad
2022

PROJECTS

Chatz | *React, Node.js, Socket.IO, Express.js, MongoDB, JWT, Cloudinary* | GitHub | Live 2025

- Built a full-stack real-time chat application using the MERN stack with Socket.IO for bi-directional, event-driven messaging between users.
- Engineered secure authentication using JWT access tokens and bcrypt password hashing, protecting all API routes from unauthorized access.
- Integrated Cloudinary CDN for media uploads and designed a responsive UI with React, TailwindCSS, and DaisyUI for seamless cross-device experience.

AI-Powered Symptom Checker | *Next.js, TypeScript, Gemini AI, MongoDB Atlas, Vercel* | GitHub | Live 2026

- Developed a full-stack AI health assistant using Next.js and TypeScript, integrating Google Gemini API for natural language symptom analysis with severity detection.
- Built serverless Next.js API routes with optimized MongoDB Atlas connection pooling, handling concurrent requests efficiently in a Vercel edge environment.
- Deployed on Vercel with secure environment variable management, API rate limit handling, and India-specific health guidance for target users.

ChunaavChain | *React, Solidity, Hardhat, ethers.js, TailwindCSS* | GitHub | Live 2024

- Architected a decentralized voting DApp on Ethereum using Solidity smart contracts to ensure transparent, tamper-proof election results.
- Wrote and deployed smart contracts using Hardhat with unit tests; integrated ethers.js to connect the React frontend with MetaMask wallet.
- Built a responsive React and TailwindCSS frontend with real-time vote tracking, live results display, and wallet connection status.

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, Python, SQL, C

Frontend: React.js, Next.js, TailwindCSS, shadcn/ui, DaisyUI, HTML5, CSS3 **Backend:** Node.js, Express.js, REST API, WebSocket, Socket.IO, JWT, bcrypt **Databases & Cloud:** MongoDB, MySQL, MongoDB Atlas, Cloudinary, GCP, Vercel **Tools:** Git, GitHub, Docker, Postman, VS Code
